## ALL SORTS.

—Lung Protectors at Thaxter's Drug Store.

—For cold feet, get a Hot Water Bag at Thaxter's.

—The Arlington House is enjoying a good run of business.

—Joseph B. Kohn, the electrician, arrived yesterday to take charge of the electric apparatus.

—The bill to provide for a \$50,000 appropriation for our Indian school has passed. This was Stewart's bill.

—Joe Cowen, the San Francisco undertaker, and a brother of Mrs. Abe Curry, died in San Francisco yesterday.

—Leslie Bell has a contraption to yank kerosene out of a can without getting it all over your clothes. Every housekeeper should have one.

—A Cheyenne gentleman tells of a Government employe who named his saddle mule "She" because the vicious animal makes her rider haggard.

—The Committee on Presbyterian College matters will meet at the parsonage this afternoon at 2:30 o'clock, for the purpose of deciding on future action.

—We continue to hear of cases of insanity caused by cigarette smoking. The fact of a young man smoking cigarettes is prima facie evidence that he is weak-minded to begin with.

—No other medicine is so reliable as Ayer's Cherry Pectoral, for the cure of coughs, colds, and all derangements of the respiratory organs. It relieves the asthmatic and consumptive, even in advanced stages of disease.

—It has been discovered that a number of wealthy people in Cincinnati have placed their aged parents in old men's and old women's homes, in order to save themselves trouble. Four inmates have been removed from one institution.

—My little son, three years of age, was terribly afflicted with scrofula. His head was entirely covered with scrofulous sores, and his body showed many marks of the disease. A few bottles of Ayer's Sarsaparilla cured him.—W. K. Becket, Hymera, Ind.

—Patrick Connelly, the ex-Sheriff of San Francisco, has commenced suit against William R. Hearst, proprietor of the Examiner, to recover \$100,000 and costs for the publication on an alleged libel. The suit is based on the articles published in the Examiner on Saturday and Sunday, charging Connelly with being connected with a big opium smuggling ring.

## Bad Postal Work.

On Friday last a gentleman in this city placed a letter on the postal car at the V. & T. depot directed to Mr. Davis, the freight agent at the Mound House. Up to Monday last the letter had not reached its destination. Mr. Davis also stated to parties in this city a few days ago that a letter on business matters was fifty-two days coming from Reno to the Mound House, and the delay cost him \$200. It is high time that the Department found out what was the matter with the postal service between Reno and the Mound House.

## Syrup of Figs

Is Nature's true laxative. It is the most easily taken, and the most effective remedy known to cleanse the System when Bilious or Costive; to dispel Headaches, Colds, and Fevers; to Cure Habitual Constipation, Indigestion, Piles, etc. Manufactured only by the California Fig Syrup Company, San Francisco, Cal. For sale by George C. Thaxter, agent Carson.

## A Queer Similarity.

A few days ago the Enterprise published a letter from the Grand Army fraud Hazzard postmarked at some Soldiers' Home in the East. A few days ago Ex-Governor Kinkead received one worded exactly as the one in the Enterprise. All his letters from the Soldiers' home read just alike.

## Petroleum V. Nasby Dead.

TOLEDO, Ohio, Feb. 15.—D. R. Locke, editor of the Blade and author of the renowned "Nasby" letters, died of consumption early this morning, aged 55 years. He leaves a wife and three sons.

## CARD FROM THE POSTMASTER.

No Detention of Letters on R. R. Postal Cars.

POSTOFFICE, CARSON CITY, NEV. FEBRUARY 15, 1888.

EDITOR APPEAL: Dear Sir:—The following item appeared in the APPEAL this morning:

Postmaster White wishes the public to be notified that all letters dropped on the cars after Postoffice hours are delayed a day at Steamboat, and do not go with the regular mail.

I never informed anyone that letters mailed in a Railway Postoffice (Railway Postal car) while standing at a depot, would be detained in anyway, or manner, from reaching their destination.

The "Railway Postoffices" were established for the convenience of the public in mailing letters after the mails are closed at local Postoffices, up to the starting of the train, and if the R. P. Clerk in charge does his duty mail matter will receive the same care as though mailed in a Postoffice, and it will not be detained in anyway.

If mail put into a Railway Postoffice after the local Postoffices had closed the outgoing mails, were to be "delayed" at the next local Postoffice passed by the train, the postal authorities would close the letter boxes on the postal cars, and would also give the public due notice of such an order.

Very respectfully yours,  
G. C. WHITE, P. M.

[The item was brought to the APPEAL by a man who claimed to have it from the Postmaster.]

## PACIFIC COAST ITEMS.

—Tom. Patterson, who was convicted in Fresno of robbery, was sentenced last Saturday to serve twenty-five years in Folsom.

—A letter bearing the legend "If not called for within ten days," etc., has been received by the writer at Marysville, after a detention of two years of the Durham Postoffice, Butte county.

—It is understood that of the seventy-three applications for pardon heard by the Governor of Cal., last Wednesday only seven pardons and one commutation were granted. Of the pardons four were granted to youths.

—J. W. Graves, a farmer at Juniper, Umatilla county, Cal., labored under the hallucination that he could not pay his debts although his estate was valued far beyond his liabilities, so he hanged himself from a rafter of his cabin Monday.

—There were two rabbit drives about eight miles South of Bakersfield, Cal., Sunday and about two hundred persons were present. The first drive resulted in the death of 4,000, and the second round-up over the same ground added 2,000 more to the pile of dead.

—A man by the name of Daniel Murphy was found in the wooded bottoms of King's river, near Centerville, having on no clothes except an undershirt. The parties who discovered him chased him on horseback and caught him with a lasso. He is in a precarious condition caused by exposure.

—An attempt at Salt Lake to take possession of Arsenal Hill in the Northern part of the city, has just been made by a real estate speculator, who claims that the property is only held by the city in trust for actual settlers who are willing to pay \$1 25 per acre therefor. The title will be a subject for litigation.

—Evidence is being taken in the Anschlag trial at Los Angeles. It does not materially differ from that published at the time of the murder of Mr. and Mrs. Hitchcock at Garden Grove. The prisoner views his position with nonchalance, and seems to believe he will be acquitted.

The court-room is crowded early with an eager throng of sight-seers.

—The Nevada City Herald publishes a list of "things needed" in that town, which embraces "means to work the gravel leads, a tannery, cannery, winery, box factory, wollen mill, pottery, and furniture factory." The Herald believes there are other industries that would pay, and modestly adds: "When, in addition to our mining industry, these things are added, we shall see prosperity such as no county ever saw before."

## Limited Tickets Abolished.

A new railroad schedule, which goes into effect next Sunday, abolishes limited first-class tickets. Those tickets were withdrawn between San Francisco and the Missouri river by order of the Transcontinental Traffic Association. Only two forms of tickets will be in use on the Southern Pacific lines after the above date, one as unlimited first-class ticket, with unrestricted stop-over privileges, and the second-class ticket, which takes the place of the immigrant tickets between Pacific Coast points and the Eastern States.

## The Lenten Fast.

The lenten fast of forty days, which is observed by the Catholic and Episcopal and Lutheran Churches, began yesterday and will continue until Easter Sunday. Catholic theologians maintain that the fast is of Apostolic origin, but most of the Protestants consider it to be of ecclesiastical institution. The common belief is that it was established as a preparation for the anniversaries of the crucifixion and resurrection of Christ and in remembrance of his fast in the wilderness.

## The Most Agreeable

As well as the most effective method of dispelling Headaches, Colds, and Fevers, or Cleansing the System, is by taking a few doses of the pleasant California liquid fruit remedy, Syrup of Figs. For sale by Geo. C. Thaxter, agent.

## Murder in the Second Degree.

## House For Rent.

House of five rooms, desirably located, partially furnished. For particulars address: "House," this office. jan24 \*

—The question put to the jurors in the Dimmig case in San Francisco indicate that the defendant will not take the stand in his own behalf. The law forbids a jurymen from constructing such conduct to a defendant's prejudice. But this is one of the instances in which the law has failed to change human nature. When a man is accused on a crime on account of circumstances which indicate him as a criminal, and which circumstances, were he innocent, he could easily explain away, and he refuses to explain them away, human nature pronounced him guilty, whatever the law may have to say on the subject.
